## **VEOLIA** ENVIRONMENTAL SERVICES

Veolia Environmental Services is the UK's leading waste management company, delivering environmental services to more than **16 million people**. Conscious of our social and environmental responsibilities, we promote the use of sustainable waste treatment methods to recover valuable raw materials to our **73,000 commercial and industrial customers** and our **100 local authority partners**.

### Key figures

**12,500** employees  
revenue of **£1.2 billion**

- **233 MW** renewable power generation from 6 energy recovery facilities and a network of landfill sites helping to reduce the consumption of fossil fuels and to cut greenhouse gases as well as providing electricity to homes and businesses
- 5 composting facilities processing over **200,000 tonnes** of green waste per annum, offering sustainable alternatives to the use of threatened lowland peat bogs
- Our network of materials recycling and sorting facilities have the capacity to handle **c330,000 tonnes** of household waste per annum, that would otherwise have gone to landfill.

## **VEOLIA** WATER

Veolia Water UK (VWUK) provides integrated sustainable solutions from drinking water supply and wastewater treatment to bespoke services for public authorities, commerce and industry, maximising efficiencies through our technological expertise. We manage outsourced water and customer services and own and operate three water companies supplying over **900 million litres** per day. In the UK, Veolia Water Solutions & Technologies (VWS) offers total solutions for the treatment of potable, process, utility and waste waters.

### Key figures

**2,200** employees (VWUK & VWS)  
serving over **3.3 million** people

- 2007 turnover VWUK **£274 million**
- 2007 turnover VWS **£70.8 million**
- Award winning VWUK Education & Environment Centre
- VWUK signed the first multi-service contract for joint water, waste and energy for VE in the UK in 2004
- VWS is the market leader in industrial, municipal, offshore oil and gas, health care and laboratory water and wastewater treatment applications.

## **Dalkia**

Operating in the United Kingdom since 1966, Dalkia (Veolia Energy globally) is one of the UK's specialists in energy-focused technical facilities services to industry, commerce, health, retail and public sector clients.
